Amendments to the Claims

Claims 1-24 (Canceled)

Claim 25 (Currently Amended) ~~A portable exercise system, as recited in claim 22, A~~

portable exercise system, comprising:

a carrying case, including:

an interior, defined by a top, a first diagonal side, a second diagonal side, a first vertical side, a second vertical side, and a bottom; and

an exterior, including a handle fixed to the top, a foot fixed to the bottom, and a wheel assembly fixed to the bottom;

a foldable trampoline adapted to fit within the interior;

a second handle assembly attached to the rear of the carrying case, wherein said second handle assembly further comprises a handle portion connected to a vertical portion, wherein said vertical portion is connectable to a leg of said foldable trampoline and wherein said second handle assembly when said vertical portion is connected to said leg of said foldable trampoline, provides a balance bar for a user of said foldable trampoline.

Claim 26 (New) The portable exercise system of claim 25, wherein the second handle assembly is removably fixable to the foldable trampoline by a sleeve coupled to the foldable trampoline.

App. No. 10/687,161
Attorney Docket 3201.2.3 CIP

Claim 27 (New) The portable exercise system of claim 26, wherein the sleeve is coupled to a leg of the foldable trampoline.

Claim 28 (New) The portable exercise system of claim 25, wherein the vertical portion of the second handle assembly comprises being length adjustable.

Claim 29 (New) The portable exercise system of claim 25, wherein the vertical portion comprises a first vertical portion and a second vertical portion each coupled to the handle portion.

Claim 30 (New) The portable exercise system of claim 29, wherein the foldable trampoline further comprises a frame including a hole through which the second vertical portion may be removably coupled to the foldable trampoline.

Claim 31 (New) The portable exercise system of claim 25, wherein the foldable trampoline further comprises six hinges located equidistant along a periphery.

Claim 32 (New) The portable exercise system of claim 25, wherein the foldable trampoline further comprises a leg configured to fold inward.

Attorney Docket 3201.2.3 CIP

Claim 33 (New) A portable exercise device, comprising:

a carrying case;
a foldable trampoline disposable within the carrying case; and
a handle removably coupleable to each of the carrying case and the foldable trampoline.

Claim 34 (New) The portable exercise device of claim 33, wherein the handle includes a vertical portion.

Claim 35 (New) The portable exercise device of claim 34, wherein the vertical portion comprises being vertically extendable.

Claim 36 (New) The portable exercise device of claim 33, wherein the carrying case is generally triangular.

Claim 37 (New) The portable exercise device of claim 33, wherein the carrying case is water-resistant.

Claim 38 (New) The portable exercise device of claim 33, wherein the handle is T-shaped.

Claim 39 (New) The portable exercise device of claim 33, wherein the handle is U-shaped.

Attorney Docket 3201.2.3 CIP

Claim 40 (New) A portable exercise system, comprising:

a carrying case;
a foldable trampoline substantially disposable within the carrying case; and
a handle assembly removably coupleable to each of the carrying case and the foldable trampoline.

Claim 41 (New) The portable exercise system of claim 40, wherein the handle assembly further comprises a first vertical portion coupled to a handle.

Claim 42 (New) The portable exercise system of claim 41, wherein the first vertical portion comprises being selectably extendable.

Claim 43 (New) The portable exercise system of claim 42, wherein the handle assembly further comprises being removably coupleable to a rear of the carrying case and removably coupleable to the foldable trampoline by a sleeve.

Claim 44 (New) The portable exercise system of claim 43, wherein the handle assembly further comprises a second vertical portion.

Claim 45 (New) The portable exercise system of claim 44, wherein the foldable trampoline includes a hole through which the second vertical portion may extend when the first vertical portion is coupled to the foldable trampoline by the sleeve.

App. No. 10/687,161
Attorney Docket 3201.2.3 CIP

Claim 46 (New) The portable exercise system of claim 45, wherein the handle assembly is U-shaped.

Claim 47 (New) The portable exercise system of claim 46, wherein the foldable trampoline comprises being generally triangular when in a folded mode.

Claim 48 (New) The portable exercise system of claim 47, wherein the carrying case comprises being generally triangular.

Claim 49 (New) The portable exercise system of claim 48, wherein the foldable trampoline further comprises six hinges located equidistant along a periphery.
